Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

Bernt Spiegel's *The Upper Half of the Motorcycle* was a best-selling motorcycling book in its original German with multiple editions and printings to its credit. Now translated into English, its provocative message is available to a wider audience. Spiegel's metaphor considers the rider and the motorcycle as a single unit, the rider being the upper half. Taking a multidisciplinary approach, the author draws on anthropology, psychology, biology, physics, and other disciplines to analyze the theory and function of the man-machine unit. Motorcycle riding is seen as a junction where people have created machines for personal transport and then become so adept at using them that the machine becomes like an extension of the rider themselves. The ultimate goal for riders is the integration of the man-machine interface and subsequent skill development to the point of virtuosity. Spiegel considers the various aspects of motorcycle riding that must be understood, practiced, and mastered before virtuosity can be attained. Many anecdotes, supplementary material, and in-depth treatment of specialized topics is contained in sidebars and footnotes. Numerous diagrams and photographs illustrate the book's principles allowing the reader to consider and develop their riding skill set.

From the bestselling authors of *Tryin' to Sleep in the Bed You Made* comes a heartwarming tale of how true friendship can overcome life's obstacles. Gayle Saunders and Patricia Reid have

been lifelong friends, as close as sisters. When they were teens their dreams led them down separate paths and away from each other. But they reunited as adults, drawn back together by a bond of friendship that stood the test of time. Now Pat and Gayle co-own the Eil & Me Company, a business they founded based on a character Gayle created years ago for her daughter. Things are going well, but real-life dramas ensue as each must face issues from the past in order to protect the future. Pat and Marcus look like the perfect twenty-first-century couple -- smart, talented, each at the helm of a high-profile enterprise and at the top of their game. But behind closed doors their marriage is challenged by the stresses of a two-entrepreneur household. Will their professional pursuits leave them time for each other and a family, or carry them into the arms of others? Will a paternity claim prove to be too much of an obstacle to overcome? Gayle faces her own family drama and struggles to maintain control of her life. Despite dating other men, has she ever really gotten over her ex-husband, Ramsey, the gambler who left her and their daughter, Vanessa, in financial ruin? Gayle bends over backward to provide a stable, comfortable home for Vanessa, and support her dream of becoming a dancer. And Vanessa, a rebellious and hurtful teen, seems just as devoted to making Gayle pay for every mistake she has ever made. And what ever happened to Ramsey? In *Gotta Keep on Tryin'*, Virginia DeBerry and Donna Grant bring us heroines who remind you, for better and worse, of women everywhere -- women who know that true friendship keeps us grounded. And when things get rough the bond between women can be stronger than any trials we face.

Dave Richardson bought his first motorcycle at 14. He wasn't much of a racer but wanted motorcycles to be his life. After a few odd jobs, he became a partner in newly-forming Moto International, and in no time, was thrust into running it. "It's a motorcycle shop. How hard can it be?" How hard indeed? Dave thought the hard part would be attracting customers. He never dreamed of the unexpected challenges. In these pages, the author of *Guzziology* tells the surprising story of dealing with banks, motorcycle manufacturers and distributors, defense contractors, finance companies, the public, and the EPA. He tells of fixing problems ignored by manufacturers, advocating for improvements in bikes, and trying to get distributors to fix customer's bikes. His career in motorcycle shops spanned 34 years, representing at various times Aprilia, Cagiva, Ducati, Husqvarna, Hyosung, KTM, Laverda, MuZ, and Ural. But always, Moto Guzzi.
