The all-color practical

Build Your Own Sports Car

provides all the

information needed to

build a road-going two-

seater, open-top sports

car on a budget, using

standard tools, basic skills

and low-cost materials.

The down-to-earth text

clearly explains each step

along the road to

producing a well-

engineered, high-

performance sports car,

providing a learning

experience in engineering

and design - and opening

up a whole new world of

fun motoring. The Haynes

Roadster, which has fully

independent rear

suspension, has been

designed with the aid of

CAD software to develop

the chassis and

suspension, resulting in a

car with performance and

handling to challenge

many established kit cars

and mainstream sports

cars. The design is

intended to make use of

components sourced

primarily from a Ford Sierra donor, although alternative donors are mentioned.

Written by bestselling author Boris Starling, *Teenagers* is one of the first titles in the brand new Haynes Explains series. A light-hearted and entertaining take on the classic workshop manual, it contains everything you'd expect to see including exploded views, flow charts, fault diagnosis and the odd wiring diagram. It takes the reader through all stages of teenagers, giving them all the hints and tips needed to keep them running smoothly.

Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.

Weird But True 9 Fresh Fiction Pub

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Vauxhall/Opel Corsa

Pearson College Division
Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the

sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

Opposites Attract...and can thrive in a marriage built on God. The book starts with the results of a survey detailing the ten most important qualities that each man or woman wants in a spouse, then teaches us how we can be the person who breeds that quality in our husband or wife. Throughout the book the authors use their own personalities and experience with marriage to demonstrate how to do marriage right.

What would you do on a day off from school? Go on an adventure, of course! Meet Charlie, an eight-year-old boy with a flare for using his imagination. Join him as he turns his snow day into a day filled with fun, excitement, and fantasy. Travel with Charlie to the Wild West, the Amazon jungle, and into outer space. Ride along for the thrills as he becomes a race car driver, a pirate, a cowboy, and even a superhero! With a little creativity (and a basement full of junk), there is no limit to where your imagination can take you!

The vivid personality, great intelligence and strong determination of

Carlo Abarth are revealed through the pages of his large biography. Described is Abarth's personal life, his early motorcycling projects and races, and the Cisitalia period and its unfortunate decline. Includes the long and successful new adventure in car-tuning which made Abarth and his cars renown all over the world. This book also contains technical data for each model produced, supported by company chassis drawings and engine cutaways. Exhaustive and accurate listing of competitions which saw Abarth cars dominating the racing fields year by year. The book is richly illustrated

by appealing and never published before photos, many of them belonging to the personal Abarth photo archive. *An Illustrated Dictionary of Art and Archaeology* Haynes Service and Repair Manuals On the occasion of the 90th anniversary of Pininfarina, a marque synonymous with style and elegance applied to car design, Pininfarina is a book that surveys, for the first time, the entire output of the Turin coachbuilder, model by model. Produced in close collaboration with the company, it draws on invaluable photographic material accompanying brief contextualising texts. Tracing the history

of Pininfarina from its origins to the present day entails reviewing some of the most iconic models in automotive history: from the numerous Ferraris bodied by the historic partner of the Maranello firm to cars such as the Cisitalia 202, the Lancia Aurelia, the Alfa Romeo Duetto and 164, the Maserati GranTurismo through to the current models born under the aegis of the Indian firm Mahindra. The book also covers the numerous Pininfarina concept cars that have written glorious pages in the history of design, raising the bar every time in terms of the excellence of the car product.
